ABOUT HYDROLICO

Fluid power systems has been our passion since more than 25 years. Over these years, we have built a dedicated team of experts who thrive to continuously seek to improve our products and services in order to be your fluid power supplier of choice. This allowed us to be recognize has a strong hydraulic leader with a solid reputation in the North America fluid power industry.

SERVICE, SALES & EFFICIENCY

We are your hydraulics specialist. Our main objective is your complete satisfaction. Hydrolico offers reliable, proven and durable products in accordance with application and technical specifications. Our experienced sales team along with our professional, attentive customer service department will work in unison with our technical division to support your application needs.

Meeting and exceeding your demands are our priorities. Hydrolico thus offers you a wide range of warehoused products that can be modified and altered to your specifications, points of sales across Canada and the United States, facilities for production in Asia with on-site supervision by Hydrolico personnel and customized local production and prototypes available through our Canadian, US plant and affiliated partners.

We have surrounded our core products with several major brands of complementary products, providing a complete line to meet our customer's demand. Our product portfolio makes us your own solution supplier for all your hydraulic and pneumatic essentials.

HC HYDRO CUSTOM BRAND

Our proprietary brand, HC Hydro Custom, offers a wide range of hydraulic products. We design, develop and engineer all of our products with the highest standards of the industry. Our recognized expertise in hydraulic cylinders allows us to develop innovative solutions capable of meeting the most specific requirements. Thanks to our factories in Canada and Asia, we have developed a production capacity capable of responding to all your requests quickly and efficiently.

TABLE OF CONTENTS

HYDRAULIC CYLINDERS

WELDED CYLINDERS - BUSHING TYPE	6
WELDED CYLINDERS - CLEVIS TYPE	9
WELDED CYLINDERS - THROUGH HOLE TYPE	13
WELDED CYLINDERS - THREADED CLEVIS TYPE	17
TIE-ROD CYLINDERS - 2500 PSI	21
TIE-ROD CYLINDERS - 3000 PSI	24
TELESCOPIC CYLINDERS - SINGLE ACTING	28
SNOW PLOW CYLINDERS	29
CYLINDERS COMPONENTS	30
SEAL KITS	35

MOTORS

LOW SPEED HIGH TORQUE MOTORS	38
MOTOR WITH INTEGRATED BRAKES	51
MOTORS ACCESSORIES	52
STEERING UNITS	53
GEAR MOTORS	54
PISTON MOTORS	56

POWER UNITS

POWER PACKS	58
-------------	----

ELECTRIC MOTORS

ELECTRIC MOTORS	64
DIRECT MOUNT "PUMP-MOTOR ASSEMBLIES"	65

PUMPS

ALUMINUM GEAR PUMPS	68
QUIET GEAR PUMPS	72
CAST IRON GEAR PUMPS	73
VANE PUMPS	74
PISTON PUMPS	76
PTO PUMPS, 2 STAGE PUMPS	78
HAND PUMPS	79
HYDROSTATIC PUMPS	80

VALVES, SUBPLATES & MANIFOLDS

DIRECTIONAL VALVES - MONOBLOCK TYPE	85
DIRECTIONAL VALVES - SECTIONAL TYPE	92
PROPORTIONAL DIRECTIONAL VALVES	98
RADIO & PNEUMATIC CONTROLS	100
CABLES & LEVERS	102
SOLENOID OPERATED DIRECTIONAL VALVES	104
MODULAR VALVES	108
MANIFOLD BLOCKS	109

SOLENOID VALVES	112
ELECTRIC FLOW DIVERTERS	114
JOYSTICK HANDLES	118
MANUAL FLOW DIVERTERS	118
BALL VALVES	120
CHECK VALVES	120
HOLDING VALVES	122
RELIEF VALVES & PRESSURE CONTROLS	126
FLOW CONTROL VALVES	130
SUN VS WINNER CROSSOVERS	133

DIVIDERS

FLOW DIVIDERS - CARTRIDGE TYPE	134
FLOW DIVIDERS - GEAR TYPE	135

ACCUMULATORS

ACCUMULATORS	136
PISTON ACCUMULATORS - ACCESSORIES	137

ACCESSORIES

ELECTRICAL SWITCHES AND TRANSDUCERS	138

HC Hydro Custom

Thanks to our dedicated and experienced team, the Hydro Custom cylinder brand has carved out a place among the market leaders in hydraulics, and developed a stellar reputation in North America.

Conceived by Hydrolico, HC Hydro Custom provides a range of products designed in Canada to meet your needs and your specifications. These products are produced in our combined 200,000 ft² production facilities in Canada, USA and Asia. We use an integrated production process managed by the engineering team at our Canadian head office and carefully monitor quality assurance and quality control. Hydro Custom products come with a one-year limited warranty, and our after-sale service is unequalled in the industry.

Custom Cylinders offers you many benefits :

- Experienced adviser in development and design
- Innovative manufacturing solutions tailored to the needs of the clients
- Customized manufacturing solutions adapted to the speed, quantity and desired price
- All our cylinders are designed with the renown Hallite seals, with a few exceptions where other suppliers, such as Trelleborg, are better suited for the application
- A variety of specialized services that can be customized to your needs, including validation of 3D prototypes, repeated rigorous testing, installation and assembly in a contaminant-free environment
- A wide range of standard cylinders provided from our three warehouses located across North America, in addition to several points of service from trading partners
- A product with a quality/price ratio unmatched in our market

Because we design our own models and have our own production facilities, we can stand behind our products 100% from start to finish. We offer full hydraulic component repair and modification services across Canada.

We are proud to contribute to the success of many companies that produce mobile hydraulic equipment to various types of industries.

HYDRAULIC CYLINDERS

SEAL TEMPERATURE RANGE : -30°C / +100°C (-22°F / +212°F)
 SEAL MAXIMUM SPEED : 3 FT / SEC

ALL SEALS ARE TOP GRADE/FIRST QUALITY NORTH AMERICAN MADE
 ALL COMPONENTS ARE CNC MACHINED FOR HIGHER ACCURACY AND CONFORMITY
 QUALITY CONTROLLED IN CHINA BY QUALIFIED CANADIAN TECHNICIANS
 100% TESTED. ALL CYLINDERS ARE SUBMITTED TO STATIC AND DYNAMIC PRESSURE TESTS TO RECOMMENDED SPECIFICATIONS

HYDRO CUSTOM IS NOT RESPONSIBLE FOR INCORRECT RESULTS OBTAINED WITH FIGURES IN THIS DOCUMENT. INFORMATION IS FOR REFERENCE ONLY. NO OTHER CONDITIONS ARE EXPRESSED OR IMPLIED.

* ASAE = AMERICAN SOCIETY OF AGRICULTURE ENGINEERS
 DESIGNATES AN INDUSTRY MOUNTING STANDARD FOR 8" AND 16" STROKE CYLINDERS

SEAL TEMPERATURE RANGE: -30°C / +100°C (-22°F / +212°F)
 SEAL MAXIMUM SPEED: 3 FT / SEC

- All seals are top grade/first quality North American made
- All components are CNC machined for higher accuracy and conformity
- Quality controlled in China by qualified Canadian technicians
- 100% tested. All cylinders are submitted to static and dynamic pressure tests to recommended specifications

COLUMN LOAD IS THE MAXIMUM PUSHING LOAD SUGGESTED USING A MINIMUM SAFETY FACTOR OF 2 AND BASED ON A PIN TO PIN MOUNTING CALCULATION.

* ASAE = AMERICAN SOCIETY OF AGRICULTURE ENGINEERS

DESIGNATES AN INDUSTRY MOUNTING STANDARD FOR 8" AND 16" STROKE CYLINDERS

SEAL TEMPERATURE RANGE : -30°C / +100°C (-22°F / +212°F)
 SEAL MAXIMUM SPEED : 3 FT / SEC

- All seals are top grade/first quality North American made
- All components are CNC machined for higher accuracy and conformity
- Quality controlled in China by qualified Canadian technicians
- 100% tested. All cylinders are submitted to static and dynamic pressure tests to recommended specifications

NEW LINEAR TRANSDUCER EQUIPPED CYLINDER

HYDRO CUSTOM SERIES ARE DESIGNED SPECIFICALLY FOR MOBILE HYDRAULIC APPLICATION :

- LIVE CYLINDER POSITIONING FEEDBACK.
- ADAPTABLE TO THE NEW MECHATRONIC ENGINEERING.
- AVAILABLE WITH INTERNAL, EXTERNAL, AND PARALLEL DESIGN.
- HIGH VIBRATION/SHOCK RESISTANCE.
- PARALLEL SERIES CAN BE INTEGRATED TO EXISTING SYSTEMS.

Analogue or digital outputs -
High cycling and vibration life

DESIGN, MANUFACTURING & QUALITY CONTROL

YOUR PARTNER TO MANUFACTURE HIGH-QUALITY HYDRAULIC CYLINDER FROM; 2 1/2 INCH. TO MORE THAN 25" BORE AND OUR MACHINERY CAN DO SUCH AS 24 FT. LONG CYLINDER.

WITH MORE THAN 25 YRS, IN BUSINESS AND A BRAND-NEW FACILITY OF 70,000 SFT. OF MANUFACTURING HYDROLICO INC. DIVISION CAN OFFER YOU MANY BENEFITS:

- AN EXPERIENCED AND QUALIFIED TEAM AS WELL AS ITS LEADING-EDGE PRODUCTION EQUIPMENT.
- EXPERIENCED ADVISORS IN DEVELOPMENT AND DESIGN.
- INNOVATIVE MANUFACTURING SOLUTIONS TAILORED TO THE NEEDS OF THE CLIENTS.
- CUSTOMIZED MANUFACTURING SOLUTIONS ADAPTED TO THE SPEED, QUANTITY AND DESIRED PRICE.
- A VARIETY OF SPECIALIZED SERVICES THAT CAN BE CUSTOMIZED TO YOUR NEEDS, INCLUDING VALIDATION OF 3D PROTOTYPES, REPEATED RIGOROUS TESTING, INSTALLATION AND ASSEMBLY IN A CONTAMINANT-FREE ENVIRONMENT.

THE HYDRAULIC MOTORS HAVE AN ADVANTAGE OF SMALL VOLUME, HIGH EFFICIENCY, LOW NOISE, ETC. AND CAN BE USED IN A WIDE FIELD OF APPLICATION SUCH AS: CONSTRUCTION, AGRICULTURAL, PLASTIC, MINING, MATERIAL LIFTING, FORESTRY, LAWN AND TURF, MACHINE TOOLS AND STATIONARY, MARINE, ETC.

BMM
UP TO 1950 RPM
UP TO 407 LB-IN

BMM IS A MINI-MOTOR WITH HIGH SPEED CAPABILITIES.

P.39

BM1
UP TO 879 RPM
UP TO 3845 LB-IN

BM1 IS A SMALL VOLUME, SPOOL VALVE TYPE MOTOR, WITH OPTIONAL SIDE LOAD BEARING DESIGN. AVAILABLE IN H (EATON) AND S (DANFOSS) PORT CONFIGURATION. HIGH PRESSURE SHAFT SEAL UP TO 2900 PSI AVAILABLE.

P.40

BM2 / BM2W
UP TO 755 RPM
UP TO 5613 LB-IN

BM2 IS A MEDIUM VOLUME, SPOOL VALVE TYPE MOTOR, WITH OPTIONAL SIDE LOAD BEARING DESIGN. AVAILABLE IN H (EATON) AND S (DANFOSS) PORT CONFIGURATION. HIGH PRESSURE SHAFT SEAL UP TO 2900 PSI AVAILABLE.

BM2W WHEEL MOTOR IS A RECESSED MOUNTING FLANGE, WITH RADIAL BEARING DESIGN, WHICH CAN BEAR A GREATER LOAD. HIGH PRESSURE SHAFT SEAL UP TO 2900 PSI AVAILABLE.

P.42

BME
UP TO 336 RPM
UP TO 9824 LB-IN

BME MOTOR HAS ADVANCED GEROLER GEAR SET DESIGN, THEY ARE SUITED FOR HIGH PRESSURE HIGH EFFICIENCY, LOW SPEED APPLICATIONS. IT CAN KEEP HIGH VOLUME EFFICIENCY, LONG WORKING LIFE. HIGH PRESSURE SHAFT SEAL UP TO 2900 PSI AVAILABLE.

P.44

BM5 / BM5S
UP TO 799 RPM
UP TO 6370 LB-IN

BM5 IS A LARGE VOLUME, DISC VALVE, HIGH PRESSURE MOTOR, WITH RADIAL BALL-BEARINGS DESIGN AND CAN BEAR GREATER LOAD. HIGH PRESSURE SHAFT SEAL UP TO 2900 PSI AVAILABLE.

BM5S BEARINGLESS MOTOR IS A SHORT MOTOR DESIGN WITHOUT BEARINGS, FOR GEARBOX ASSEMBLY APPLICATIONS.

P.46

BMT
UP TO 12958 LB-IN

BMT IS OUR LARGEST VOLUME DISC VALVE HIGH PRESSURE MOTOR WITH RADIAL BALL-BEARINGS DESIGN WHICH CAN BEAR GREATER LOAD AND IS SHORTER THAN OUR **BM6**.

P.48

BM6
UP TO 775 RPM
UP TO 3852 LB-IN

BM6 IS A LARGE VOLUME, DISC VALVE, HIGH PRESSURE MOTOR, WITH RADIAL BALL-BEARINGS DESIGN AND CAN BEAR GREATER LOAD, AND HAS HIGHER TORQUE CAPABILITIES THAN OUR **BM5**.

P.49

BMV
UP TO 17813 LB-IN

BMV IS A DISC VALVE, HIGH PRESSURE MOTOR, WITH RADIAL BALL-BEARINGS DESIGN AND EFFICIENT PERFORMANCE WHICH CAN BEAR GREATER LOAD THAN **BMT**. ITS FIGURATION IS BIGGER THAN **BMT**.

P.50

BMM SERIES MOTOR IS A MINI-MOTOR WITH HIGH SPEED, VERY COMPACT DESIGN, SPOOL VALVE, ECONOMICAL TYPE MOTOR.

CHARACTERISTIC FEATURES

- * COMPACT DESIGN OF SPOOL AND GEAR SET, WHICH PROVIDE MINI VOLUME, HIGH POWER DENSITY AND LOW WEIGHT
- * CREDIBLE DESIGN FOR SHAFT SEAL, WHICH CAN BEAR HIGH PRESSURE AND BE USED IN PARALLEL OR IN SERIES
- * DIRECTION OF SHAFT ROTATION AND SPEED CAN BE CONTROLLED EASILY AND SMOOTHLY

BM1 SERIES MOTOR IS A SMALL VOLUME, SPOOL VALVE GEROLOR GEAR SET, ECONOMICAL TYPE MOTOR

CHARACTERISTIC FEATURES

- COMPACT DESIGN OF SPOOL AND GEAR SET, WHICH PROVIDE SMALL VOLUME, HIGH POWER AND LOW WEIGHT
- DIRECTION OF SHAFT ROTATION AND SPEED CAN BE CONTROLLED EASILY AND SMOOTHLY
- BEST COMBINATION OF EFFICIENCY AND ECONOMY IN MEDIUM LOAD APPLICATIONS
- STANDARD SHAFT SEALS RATED AT 1900 PSI
- NEW, ON MANY SERIES, HIGH PRESSURE SHAFT SEALS UP TO 2900 PSI, AVAILABLE UPON REQUEST

BM2 / BM2W SERIES MOTOR IS A MEDIUM, SPOOL VALVE TYPE MOTOR, THAT CAN BEAR HIGHER PRESSURE THAN BM1.

CHARACTERISTIC FEATURES

- IT ADOPTS THE GEROLOR DESIGN
- HAS HIGHER EFFICIENCY THAN OUR BM1 SERIES
- CREDIBLE DESIGN FOR SHAFT SEAL, WHICH CAN BEAR HIGH PRESSURE AND CAN BE USED IN PARALLEL OR IN SERIES APPLICATION
- DIRECTION OF SHAFT SPEED CAN BE CONTROLLED EASILY AND SMOOTHLY
- BEST EFFICIENCY AND ECONOMY IN MEDIUM LOAD APPLICATIONS
- STANDARD SHAFT SEALS RATED AT 1987 PSI
- NEW, ON MANY SERIES, HIGH PRESSURE SHAFT SEALS UP TO 2900 PSI

BM2

BM2W

BME SERIES MOTOR HAS ADVANCED GEROLER GEAR SET DESIGN, THEY ARE SUITED FOR HIGH PRESSURE HIGH EFFICIENCY, LOW SPEED APPLICATIONS. IT CAN KEEP HIGH VOLUME EFFICIENCY, LONG WORKING LIFE.

CHARACTERISTIC FEATURES

- ADVANCED GEROLER GEAR SET DESIGN, LOW PRESSURE OF START-UP, HIGH EFFICIENCY
- HIGH PRESSURE APPLICATIONS, HIGH TORQUE. HAS NEEDLE BEARINGS DESIGN, IT CAN BEAR HIGH AXIAL AND RADIAL FORCES
- ADVANCE HIGH SPEED DISTRIBUTION FLOW DESIGN, AUTOMATICALLY COMPENSATE IN OPERATING, HIGH VOLUME EFFICIENCY, RUN SMOOTHLY AT LOW SPEED
- STANDARD SHAFT SEALS RATED AT 1900 PSI
- NEW, ON MANY SERIES, HIGH PRESSURE SHAFT SEALS UP TO 2900 PSI

BMT IS A LARGE VOLUME DISC VALVE, HIGH PRESSURE MOTOR, WITH RADIAL BALL-BEARINGS DESIGN, AND CAN BEAR GREATER LOAD.

CHARACTERISTIC FEATURES

- THE MOTOR CAN BE USED IN HIGH PRESSURE AND HIGH TORQUE
- ADVANCED DESIGN IN DISC DISTRIBUTION FLOW, WHICH CAN PROVIDE IMPROVED PERFORMANCE AT LOW SPEED
- THE VALVE CAN AUTOMATICALLY COMPENSATE FOR THE WEAR, SO THE VOLUMETRIC EFFICIENCY IS HIGH
- DOUBLE TAPER ROLLER BEARINGS PERMIT HIGH RADIAL LOADS. THE MOTORS CAN BE USED ON HEAVIER VEHICLES IN TRACTION DRIVE APPLICATIONS

- NOTES**
1. CONTINUOUS DATA: THE MAX. VALUE OF OPERATING MOTOR CONTINUOUSLY.
 2. INTERMITTENT DATA: THE MAX. VALUE OF OPERATING MOTOR IN 6 SECONDS PER MINUTE.
 3. A SIMULTANEOUS MAX. RPM AND MAX. PRESSURE IS NOT RECOMMENDED.
 4. THE CONVERSION FACTORS IS ON THE PAGE 4, CONSULT IT PLEASE.
 5. OPTIMUM OPERATING SITUATION SHOULD BE AT THE 1/3-2/3 OF THE CONTINUOUS OPERATING SITUATION.

BM6B BRAKE MOTOR

BM6B MOTOR IS A BM6 WITH MULTI-DISC BRAKE WHICH RELEASES USING HYDRAULIC PRESSURE. THE MOTOR HAS THE SAME WORK PERFORMANCE AS A REGULAR BM6 WHEN THE BRAKE IS RELEASED.

DISPLACEMENT IN ³ (CM ³) / REV.	11.8 (195)	14.9 (245)	18.9 (310)	24.0 (395)	29.8 (490)	38.1 (625)

HYDRAULIC BRAKES TO INSTALL ON MOTORS

ZD80 AND ZD100 SERIES HYDRAULIC BRAKES ARE MULTI-DISC BRAKE DESIGN. THEY ARE WIDELY APPLIED IN HEAVY LOAD MACHINES SUCH AS; CRANES, AGRICULTURAL MACHINES, ENVIRONMENTAL SANITATION MACHINES, ETC.

- COMPACT DESIGN
- CAN BE INDEPENDENTLY USED WITHOUT MOTORS
- EXCELLENT PERFORMANCE
- EASY TO INSTALL

MAIN SPECIFICATION

MODELS	ZD80	ZD100
MIN STATIC TORQUE (LB-IN)	3982	4865
MIN OPENING PRESSURE (PSI)	362	
MAX OPENING PRESSURE (PSI)	4350

Our power units follow the same vigorous production and assembly processes as the rest of our products. The Hydro Custom power units are used in various applications :

- Car lift
- Snow plow
- Dock leveler
- Lift table
- Scissor lift
- Tail gate
- Fork lift
- Tipper trailer
- Dump trailer
- Garbage truck
- RV
- Wheel chair and medical

FEATURES AND BENEFITS

- Choice of configurations of multiple components such as pumps, valves, motors and tanks
- Experienced advisors in hydraulic circuit conception that will help you with the design of powers units according to your needs and requirements
- Power units can be fitted with blocks manifold designed to your specifications and manufactured in our workshops
- Mounting and testing of power units in a clean environment and without contamination, according to procedures established by highly qualified technicians
- Manufacturing customized solutions or series are possible taking into consideration the time of execution, the amount and the budgetary
- Price constraints
- 3D drawings, hydraulic and electrical plans and reports of tests (flow, pressure, speed, etc.) upon request
- Variety of standard power units distributed in our three warehouses across North America
- Several points of service in North America with hydraulic spare parts
- Well studied Quality/Price Ratio in order to provide you with the best possible offer
- Tank can be used horizontally or vertically

Whatever your requirements, our experienced team will be able to design the unique hydraulic solution that meets your individual specifications. Project appraisal, inventory request and orders are accessible to affiliated distributors.

OTHER SCHEMATICS

PICKUP SNOW PLOWS

SPECIAL DESIGN DC DRIVEN POWER PACK WITH REMOTE

MODEL CODE: 1W2W-F2.5RY14-AR

- CUSHION VALVE TO ABSORB SHOCKS ON LEFT-RIGHT MOVEMENT
- MADE FOR 3 SINGLE ACTING CYLINDERS
- LEFT/RIGHT LIFT AND FLOAT

REMOTE SPECIFICATIONS

- 2 AXIS JOYSTICK (LEFT, RIGHT, UP & DOWN)
- ROCKER SWITCH WITH LIGHT TO ACTIVATE FLOAT POSITION
- 10 FT. CABLE

TIPPER TRAILERS

- DC DRIVEN HYDRAULIC POWER PACK FOR DUMPERS WITH REMOTE

DOCK LEVELERS

- AC DRIVEN POWER PACK USED ON ALL MAJOR LOADING DOCKS
- SEQUENTIAL LIP LIFT ACTION

CAR LIFTS

- AC DRIVEN POWER PACK USED ON CAR/TRUCK LIFTS FOR MAINTENANCE OR STORING APPLICATIONS

Powerful
High torque
High bearing

Drift free positioning
Zero internal leakage
Smooth operation
No external brake required

Backdrives in overload conditions
Hydraulic fuse
Prevents mechanical damage

Ultra-Compact
High power density
Fits in tight spaces

Streamline design
Eliminates linkages and bearings
Reduced bill of materials

Durable
Suitable for harsh environments
Moving parts enclosed

TEFC MOTORS

- CHOICE OF 1/3 TO 20HP
- 1800 RPM (3600 RPM AVAILABLE)
- SINGLE AND THREE PHASE
- NEMA FRAME FROM 56 TO 215TC
- IP44 CLASS, 1.15 FS

QUIET GEAR PUMP 55DB

SETTIMAMECCANICA CONTINUUM® REPRESENTS THE NO NOISE ALTERNATIVE TO GEAR AND VANE PUMPS TO CREATE A BETTER WORKING ENVIRONMENT. PRODUCTS ARE IDEAL FOR HIGH PRESSURE APPLICATIONS DESIGNED WITH A NO NOISE PUMP TECHNOLOGY CAPABLE OF ELIMINATING ACOUSTIC EMISSIONS AND VIBRATIONS.

ADVANTAGES:

- SPECIAL ROTORS PROFILE AVOIDS OIL ENCAPSULATION
- **NO NOISE - AVERAGE 15DB (A) - LESS NOISE COMPARED TO STANDARD GEAR AND VANE PUMPS**
- EXTREMELY LOW VIBRATIONS AND PULSATIONS
- VERY HIGH EFFICIENCY FOR A WIDE RANGE OF SPEEDS (UP TO 6.500 RPM)
- MAXIMUM OPERATING PRESSURE UP TO 300 BAR
- INTERCHANGEABLE WITH STANDARD GEAR PUMPS

**NO NOISE
CONTINUUM®
TECHNOLOGY**

PARAMETERS:

PARAMETERS INFLUENCING EMISSIONS OF HYDRAULIC NOISE ARE:

- CAVITATION
- PRESSURE PEAKS RISING FROM TRAPPED FLUID BETWEEN GEAR TEETH
- RIPPLE OR FLOW PULSATION

DIFFERENTLY FROM TRADITIONAL GEAR PUMPS, THE PATENTED CONTINUUM® HELICAL ROTORS PROFILE DOES NOT TRAP ANY FLUID VOLUME, RESULTING IN A GENTLE FLUID TRANSMISSION AND AN OUTSTANDING REDUCTION OF PULSATIONS.

VP VARIABLE DISPLACEMENT VANE PUMPS

- FULLY ADJUSTABLE FLOW AND PRESSURE COMPENSATOR. HIGH EFFICIENCY, LOW TEMPERATURE AND ENERGY-SAVING DESIGN
- VERY LOW NOISE, QUICK RESPONSE AND STEADY OPERATION
- ADJUSTMENT SCREWS FOR BOTH PRESSURE SETTING AND MAXIMUM FLOW SETTINGS

SPEED : MINIMUM : 800 RPM, MAXIMUM : 1800 RPM
 DRAIN MUST BE INSTALLED UNDER OIL LEVEL AND BELOW 7 PSI
 PIPE LENGTH SHOULD BE SHORTER THAN 3 FT
 INDEPENDENT RETURN LINE TO TANK REQUIRED

PPV LOAD SENSING VARIABLE DISPLACEMENT PUMPS

- SPECIFICALLY DESIGNED FOR THE NEEDS OF THE TRUCK MARKET
- WELL ADAPTED FOR APPLICATIONS IN : CRANES, REFUSE VEHICLES, SALT SPREADERS, SNOW EQUIPEMENT, CONSTRUCTION EQUIPEMENT AND TIPPER TRUCKS
- EXTREMELY COMPACT IN SIZE TO ALLOW DIRECT MOUNTING ON VEHICLE ENGINE OR PTO'S

HDS BENT AXIS FIXED DISPLACEMENT PUMPS

- BENT AXIS PISTON PUMP FOR TRUCKS
- 4 BOLT SAE B & SAE C MOUNTING
- FROM 0.73 IN (12 CC) TO 7.93 IN (130 CC)
- PRESSURES UP TO 6000 PSI

A10V VARIABLE DISPLACEMENT PUMPS

TECHNICAL SPECIFICATIONS

- SWASHPLATE AXIAL PISTON PUMP
- GOOD SUCTION CHARACTERISTICS
- COMPACT, LIGHTWEIGHT, LOW NOISE
- LONG SERVICE LIFE, HIGH PRECISION BEARINGS
- AXIAL AND RADIAL LOAD CAPACITY

MAXIMUM OPERATING PRESSURE

NOMINAL: 4060 PSI (280 BAR)
 INTERMITTENT: 4560 PSI (315 BAR)
 PEAK: 5075 PSI (350 BAR)
 MAXIMUM CASE DRAIN PRESSURE: 29 PSI (2 BAR)
 SUCCION PRESSURE RANGE: 11.6 - 435 PSI (0.8 - 30 BAR) ABSOLUTE

FEATURES

- PRESSURE COMPENSATOR WITH LOAD SENSE CONTROL (DFR)
- VOLUME STOP
- CLOCKWISE ROTATION
- SIDE PORTS WITH CODE 61 FLANGES
- BUNA SEALS

ALSO AVAILABLE

- MANY CONTROLS SUCH AS: REMOTE COMPENSATOR (DRG) AND COMPENSATOR WITH HORSEPOWER LIMITER (DFLR)
- COUNTERCLOCKWISE ROTATION
- END PORTS WITH CODE 61 OR 62 FLANGES
- VITON SEALS
- OTHER MOUNTING FLANGES AND SHAFTS

- BASICALLY SAME TPV 1100 SPECIFICATIONS
- VERY COMPACT (BACK TO BACK PUMPS CONFIGURATION)

TPV 1500 VARIABLE DISPLACEMENT CLOSED LOOP SYSTEM AXIAL PISTON PUMP

FEATURES:

- COMPACT DESIGN
- HIGH POWER DENSITY
- SUITABLE FOR MULTIPLE PUMP ASSEMBLY
- SAE B MOUNT WITH 13T SPLINE SHAFT
- BUILT-IN PRESSURE RELIEF VALVES
- LOW NOISE INTEGRATED CHARGE PUMP

CONTROLS AVAILABLE:

- HYDRAULIC SERVO CONTROL
- ELECTRO-PROPORTIONAL SERVO CONTROL
- MECHANICAL LEVER SERVO CONTROL WITH FEEDBACK

OPTIONS:

- FEEDBACK ON CONTROLS
- PRE-ARRANGED FOR CONNECTION WITH EXTERNAL FILTER
- INTEGRATED FILTER WITH OR WITHOUT CLOGGING INDICATOR
- AUXILIARY GEAR PUMP
- FLUSHING VALVE WITH SCREW BY-PASS
- MAN ON BOARD
- SENSORS FOR RPM, ANGLE, PRESSURE

PV4 VALVES

- LOAD SENSING PROPORTIONAL FOR FIXED AND VARIABLE DISPLACEMENT PUMPS
- FOR MOBILE & INDUSTRIAL APPLICATION
- FULLY CUSTOMIZED VALVE
- CHOICE OF SPOOLS ESPECIALLY DESIGNED FOR REQUEST FLOW
- LEVERS WITH INDIVIDUAL FLOW ADJUSTMENT SCREWS
- MANY CONTROLS AVAILABLE SUCH AS:
 - SINGLE MANUAL LEVERS
 - ELECTRONIC ON/OFF SIGNAL
 - PROPORTIONNAL ANALOG OR PWM SIGNAL
 - HYDRAULIC & CABLE CONTROLS
 - FRICTION DETENT
- SHOCK AND ANTI-CAVITATION VALVES AVAILABLE
- GREAT CHOICE OF DIFFERENT INLETS

PVH-1 PROPORTIONAL CONTROL

- SINGLE LEVER FOR ONE SECTION OPERATION
- ESPECIALLY DESIGNED TO BE INSTALLED WITH PV4 & PV3 VALVES

INPUT RANGE	11-30VDC
CURRENT CONSUMPTION	100 mA
OUTPUT VOLTAGE	0.25 - 0.75 VDC
NEUTRAL VOLTAGE	0.5 VDC

PDV VALVES

PDV VALVES ARE NEW BREAKTHROUGH PRODUCTS WITH UPGRADED HYDRAULIC FUNCTIONS THAT FULFILL THE EVER INCREASING MARKET DEMANDS FOR IMPROVED MACHINES PRODUCTIVITY, SAFETY, REQUIREMENTS, ENERGY EFFICIENT AND ENVIRONMENTAL OPERATION.

BASED ON LOAD SENSING TECHNOLOGY, THE ABILITY TO METER IN OUT ANY LOAD ACTUATORS PROVIDES A WIDE CHOICE OF CONTROL OPTIONS, AND ARE MEANT TO BE USED IN HAZARDOUS AREA.

- ELECTROHYDRAULIC CONTROL
- HYDRAULIC CONTROL
- MANUAL CONTROL
- UP-STREAM PRESSURE COMPENSATED
- LOAD INDEPENDENT FLOW
- CAN BE OPERATES WITH BOTH FIXED AND VARIABLE DISPLACEMENT PUMPS
- HIGH POWER CAPABILITY CONTROL IN COMPACT DIMENSION
- HIGH REPEATABILITY FLOW ACCURACY
- FLEXIBLE HIGH-QUALITY PRODUCT

WIRELESS TRANSMITTER AND RECEIVER

Remote control solutions for industries where safety and reliability are crucial. the operator can stand on the side and control the machine from a safe distance. Ideal for :

- large construction cranes
- drilling rigs
- concrete pumps
- forestry machines
- truck cranes

BAILEY BLUETOOTH® CONTROLLER

The Bailey Bluetooth® Controller is a Bluetooth® receiver with four outputs. Using the Bailey App on your smartphone, electrical loads can be switched on and off. The Bailey app allows the user to visualize the respective outputs as well as their status (on / off) and create unique configurations for each functions application. Application examples include: hydraulic power unit control, winches, dump trailers, lift tables, roll-back trucks, jacks, electric motor, lights, and more.

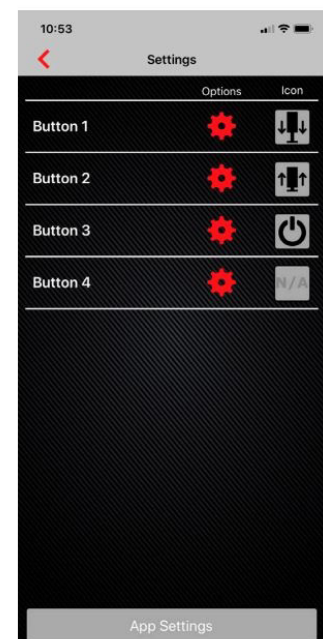

Features:

- 9-36Vdc, 10 amps, 3.7 amps per channel
- 4-function configurable control outputs
- Operating range up to 246 ft.
- -40° to 176° F temperature range
- Molded casing (IP66)
- Easy install with plug and play wiring harness and setup guide
- Customized icons for a variety of applications
- Momentary, maintained, timed, and lock-out control options
- Settings are stored on receiver and can be password protected
- Retail packaged and user manual included

BAILEY PART NO 301300

APPLICATION ICONS

Air proportional cab switch with full integrated lever to control both PTO engagement and tipping/lowering. Several versions available to meet any requirements.

N-FORCE PNEUMATIC CONTROLS

MODEL CODE	DESCRIPTION
100 001 81003	AUTOMATIC PTO KNOCK-OFF, 1/4" AIR FITTINGS
100 001 81030	MANUAL PTO KNOCK-OFF, 1/4" AIR FITTINGS

N-GAGE AIR CAB SWITCH

MODEL CODE	DESCRIPTION
100 001 81003	3/2, DETENT, LED, 1/4" AIR FITTINGS

3 POSITION PNEUMATIC CONTROLS

MODEL CODE	DESCRIPTION
100 001 42015	DETENT ON NEUTRAL POSITION. PROPORTIONNAL LOWERING TIPPING

ALSO AVAILABLE ON REQUEST

SINGLE AND DUAL ROTARY PNEUMATIC SWITCHES

PUSH PULL PNEUMATIC SWITCHES

DUAL AND TRIPLE PNEUMATIC SWITCHES

FITS ON HYDRAULIC VALVES

BACKPRESSURE VALVE

MODEL CODE	DESCRIPTION
4WEH 25-BPV	INSTALL ON 4WEH25-G AND 4WEH25-G VALVES

SUBPLATES

MODEL CODE	DESCRIPTION	WEIGHT (LBS)
SPA08-SP-S20	ALUMINIUM, 3000 PSI, SAE-20, SIDE PORTS	7.6

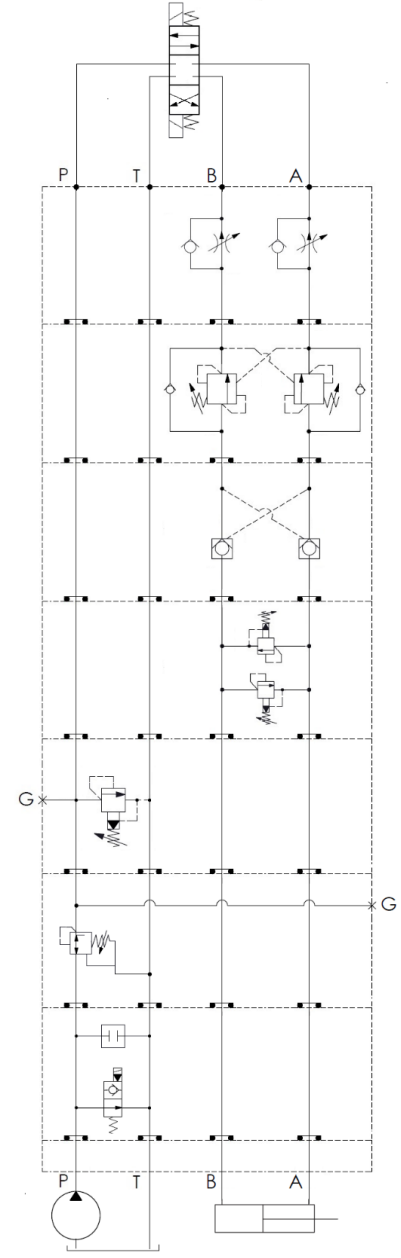

MODULAR VALVES

- COMPACT DESIGN
- MULTIPLE CIRCUITS
- STACKABLE
- AVAILABLE IN ALUMINUM OR STEEL
- LESS OVERCROWDING HOSE AND FITTING LOWERING THE AMOUNT OF LEAK POINT

FUNCTION	MODEL CODE	CETOP	MAX GPM	HEIGHT (IN)	PSI RANGE
FLOW CONTROL METER "OUT"	MTCV-02-W-K	D03	9	1.57	-
	MTCV-03-W-K	D05	18	2.16	
COUNTERBALANCE VALVE (PILOT RATIO 3:1)	MH03CDW-CB3H-CB3H-A02	D03	10.5	1.75	1000 - 4000
	MH05CDW-CB3H-CB3H-A01	D05	21	1.95	2000 - 5000
LOCK VALVE (PILOT RATIO 3:1)	Z2S6	D03	13	1.57	-
	Z2S10	D05	21	1.97	
CROSS-OVER RELIEF (A - B)	MH03RDH-RP0A-RP0A-A01	D03	10.5	1.75	1000 - 3000
	MH05RDH-RP0A-RP0A-A01	D05	21	1.95	
PRESSURE RELIEF P TO T PORT	MRV-02-P-3	D03	10.5	1.75	100 - 3000
	MRV-03-P-3	D05	21	1.95	
PRESSURE REDUCING ON "P" PORT	MBRV-02-P-1	D03	9	1.57	100 - 1000
	MBRV-02-P-3				1000 - 3000
	MBRV-03-P-1	D05	18	2.16	100 - 1000
	MBRV-03-P-3				1000 - 3000
DERIVATIVE CIRCUIT	MH03RPJ-10A2-EP02*	D03	10.5	1.75	-
	MH05RPD-CP00-EP02*	D05	21	1.95	

* COIL MUST BE ORDERED SEPARATELY. USE EC04W MODEL

- MADE OF ALUMINUM
- 3500 PSI MAXIMUM PRESSURE
- INCLUDES MOUNTING KIT
- RELIEF CAVITY C10-2
- SAE-06 PRESSURE GAUGE PORT

ALSO AVAILABLE

- MORE STATIONS
- STEEL / CAST IRON
- TYPE OF CAVITY FOR RELIEF
- CUSTOMIZED BLOCKS

222574	RD-1450	1/2 NPT	3000	30	4:1	7.0

COUNTERBALANCE VALVES ARE USED TO KEEP A LOAD LOCKED. THE BUILT-IN RELIEF CONTROL THE LOAD AND LIMIT THE PRESSURE IN THE ACTUATOR. SINCE THESE 2 MODELS ARE ATMOSPHERICALLY VENTED, THEY ARE NOT AFFECTED BY BACK PRESSURE SO THEY CAN BE USED IN A SYSTEM USING DIRECTIONAL VALVES THAT HAS PORTS CLOSED IN NEUTRAL POSITION.

IN THIS CASE, THE LOCK FUNCTION WORKS HOWEVER IT LOSES HIS RELIEF FUNCTION IN NEUTRAL POSITION. IF THEY ARE USED WITH DIRECTIONAL VALVES THAT HAS OPEN PORTS IN NEUTRAL POSITION, THEY WORK EXACTLY AS A REGULAR COUNTERBALANCE VALVE.

SINGLE COUNTERBALANCE VALVES

Threaded Adapter

Bayonet Adapter

DESICCANT BREATHER ADAPTORS

- ADAPT DESICCANT BREATHER TO TANK

MODEL CODE	DESCRIPTION
DB-BA	BAYONET
DB-R2	3/4" NPT

LEVEL GAUGES

- OIL INDICATOR WITH THERMOMETER
- AVAILABLE WITH METRIC BOLT THREAD

MODEL CODE	THREAD	DIMENSIONS (IN)		
		I	H1	H2
T-LLG-3	1/2-13 UNC	3.0	4.2	1.2
T-LLG-5		5.0	6.1	
T-LLG-10		10.0	11.1	1.3

SIGHT WINDOWS

- INDICATE LIQUID LEVEL IN RESERVOIR
- REFLECTOR BALL IN OPTION

MODEL CODE	THREAD	MODEL CODE	THREAD

* REFLECTOR BALL

MODEL WITH REFLECTOR

TANK COVERS

- GIVES ACCESS TO INSIDE OF RESERVOIR
- MADE IN STEEL ZINC PLATED
- NO-LEAK GASKET
- DRAIN IN OPTION

MODEL CODE	DIM "A" (IN)
TC-6	6.0
TC-12	12.0
TC-14	14.0

BAFFLE ADAPTER

- LINKS THE TANK COVER TO THE BAFFLE

MODEL CODE: TC-BA

MAGNETIC DRAIN PLUGS

- ATTRACTS FERROUS PARTICLES

MODEL CODE	THREAD
MDP-8	1/2 NPT
MDP-12	3/4 NPT
MDP-16	1 NPT

Standard and customized tanks

In this brochure Padoan presents the "N" tanks, the standard solutions available for our clients. Our R&D dept. is at your disposal to find the best solution to fit your needs with customized products.

Feel free to contact us at info@padoan.it.

Go to our online configurator to find the best solution for you

<https://www.padoan.it/en/north-america-configurator/>

Family company since 1937, we are **manufacturer of oil, diesel-oil and combined tanks/reservoirs** for industrial vehicles and machineries.

With a strong focus on R&D, technology and support to our clients, the mission is translated into action by the **Italian headquarter and by the 3 subsidiary companies** in Switzerland, Germany and Chile.

Our know-how allows us to provide the right **solution to bodybuilders, OEMs and distribution networks** too.

The **Italian design and quality markout our wide range of hydraulic tanks/reservoirs specifically designed for North America**.

Quality, innovation, r&d are keystones of our success in more than 50 Countries in the world.

Our mission and vision can be expressed by our claim: **WETANKYOU since 1937**.

We want to be a partner more than a supplier, working by our clients' side and reaching their goals, that is the reason why every day we ThANK our clients who trust us as a partner to develop their projects and strategies.

At the same time whe ThANK our team, more than 200 people in the world who, from more than 80 years, provides the quality and value we share with you.

**RAW MATERIAL USED IN AUTOMOTIVE FIELD**

The material we use guarantees resistance, finishing, longer life expectancy, high quality perception to create premium products.

**AUTOMATIZED WELDING PROCESS**

For several years our welding process has been carried out by automatized robots, through the adoption of the MIG/MAG technology. This allows a better internal cleaning avoiding the contamination normally caused by manual or standard welding.

**PAINTING PROCESS WITH PRIMER TREATMENT**

The painted steel tanks are finished with an epoxy powder varnishing (from 110 to 180 μ) to guarantee the protection from aggressive agents. Primer is also applied for further protection. Each tank is also tested through a salt spray process lasting 500 hours.

**RELIABILITY TEST WITH CRACK TESTING MACHINE**

All of our tanks components, including brackets and straps, are tested with our cracking vibration machine to verify the life expectancy and quality of our products.

**QUALITY TEST 1:1 WITH LEAK DETECTOR**

Every tank is tested through an automatized machinery to verify any microscopic loss, using helium technology. Every tank is marked with a label to indicate it has been tested and approved.

All rights reserved to Padoan srl. It is not allowed any kind of copy or use of information or pictures contained in this brochure.

Pictures and descriptions provided for our products are not to scale and are intended for illustrative purposes only.

Padoan is not responsible for any mistake or inaccuracy. The Company reserves the right to change the technical features of the products without prior notice.

26/36 SERIE - SADDLEMOUNT INSTALLATION

- MADE OF STEEL
- WELDED MOUNTING BRACKET
- LEVEL GAUGE INCLUDED
- RETURN COVER FLANGE INCLUDED
- USE WITH COMMON BAYONET FILLER-BREATHER

Customized service for any project size

Hydrolico's sales team and outstanding customer service department work closely with technical support to help you select the best product solutions for your needs. Our reliable and durable components and systems will meet all your technical specifications, ensuring your complete satisfaction.

Your one-stop shop for hydraulics, pneumatics and automation.

- High-value fluid power systems
- High hand simulation tools
- Consultation services
- Support team : troubleshooting, field installation, startup, data logging
- Benchmarking
- Turnkey solutions
- Customized training

HYDRAULIC POWER UNITS (HPU)

- DESIGN AND MANUFACTURING BASED ON YOUR SPECS
- HYDRAULIC CABINETS
- ELECTRO-HYDRAULIC AND PROPORTIONAL SYSTEMS
- TURNKEY SYSTEMS
- MODIFICATION, REPAIR, RECONDITIONING, STARTER AND TROUBLESHOOTING SERVICES
- ANALYSIS AND SIMULATION WITH AUTOMATION STUDIO™ SOFTWARE

MANIFOLDS

- DESIGN AND MANUFACTURING IN ACCORDANCE WITH NFPA STANDARDS OR BASED ON YOUR SPECS
- ALUMINUM, STEEL AND STAINLESS STEEL
- SINGLE OR FOR HIGH-VOLUME PRODUCTION UNIT

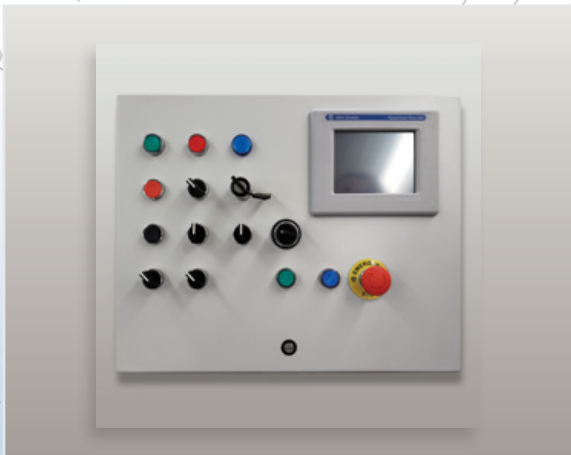

PNEUMATIC SYSTEMS

- DESIGN AND MANUFACTURING BASED ON YOUR SPECS
- ELECTRO-PNEUMATIC SYSTEMS
- INTEGRATED CABINETS
- PNEUMATIC AUTOMATION

AUTOMATION

- INTEGRATION PARTNER - DRACON
- CUSTOM DESIGN AND MANUFACTURING OF POWER UNITS AND CONTROL PANELS
- AUTOMATION AND CONTROL REPLACEMENT PARTS
- INTEGRATION OF YOUR AUTOMATED SYSTEMS: PLC, HMI (HUMAN MACHINE INTERFACE), SCADA SOFTWARE, SERVOMOTORS, ROBOTS AND VISION SYSTEMS

 HC Hydro Custom

Terms & Conditions

1 Presentation

Bailey International, LLC, Hydrolico International Inc, and their respective parent companies, subsidiaries, and affiliates (collectively, “Hydrolico,” “we,” or “our”) have created these Terms and Conditions (“Terms”) governing our provision of products and services. Our Privacy Policy and Online Services Terms of Use are available here and are incorporated into these Terms by reference, as if they were completely restated here.

BY ORDERING PRODUCTS (DEFINED BELOW) FROM HYDROLICO, THE CUSTOMER (DEFINED BELOW) AGREES TO THESE TERMS, WHICH, TOGETHER WITH ANY PURCHASE ORDER (DEFINED BELOW) AND ALL PRODUCT SPECIFICATIONS (DEFINED BELOW) PROVIDED OR SIGNED BY THE CUSTOMER AND ACCEPTED BY HYDROLICO, COLLECTIVELY FORM A BINDING AND ENFORCEABLE AGREEMENT BETWEEN HYDROLICO AND THE CUSTOMER.

These Terms modify and replace the existing Hydrolico Terms and Conditions. These Terms come into effect on May 1, 2023.

2 Definitions

Unless the context requires otherwise, the following words or phrases, when capitalized, have the meaning ascribed to them below.

2.1 Purchase Order

“Purchase Order” means all documents titled “Purchase Order” and any other order request confirmation, including signed drawings, online orders, fax orders, email orders, letters, and telephone confirmations.

2.2 Customer

“Customer” means the customer named on any purchase order or supply agreement for any product, and includes individuals, as well as any business or other person that the individual represents.

2.3 Products

“Products” or “Product” means all hydraulic components manufactured or distributed by Hydrolico and all other goods purchased by Bailey for resale, as well as all services provided by Hydrolico in connection with any Products.

2.4 Product Specifications

“Product Specifications” means all descriptions, documents, images, drawings, manuals, instructions, and warnings that in any way describe or specify the design, function, appearance, materials, use, operation, maintenance, disposal, disassembly, or demolition of any Product supplied by Bailey.

3 No Variation of the Terms

The Product supply arrangement between Hydrolico and the Customer is subject to and governed by these Terms. Any variation of these and any additional or different terms or conditions on any document submitted by the Customer are hereby expressly rejected. All orders are subject to acceptance by Hydrolico and all accepted orders are governed by these Terms. Any representation, current transaction, or promise or condition or commercial use not incorporated herein is not binding on Hydrolico. In the event of a conflict between the Terms and any Purchase Order, these Terms will prevail.

4 Ordering Procedures

The Customer places orders with Hydrolico using a Purchase Order. The Purchase Order must include the order number, the products to be supplied, the prices, the quantities, the required date, the place of delivery and the Customer's contact information.

By placing an order for Products with Hydrolico, the Customer states and warrants that he has the authority to enter into a legally binding agreement on behalf of any entity or other person that he represents.

Upon receipt of the Purchase Order, Hydrolico will confirm in writing its acceptance or refusal of the Purchase Order.

The Purchase Order will include the terms and conditions set out in these Terms without the need to expressly refer to them.

Within five (5) business days of its acceptance, Hydrolico may refuse a Purchase Order if additional information is required or if Hydrolico is unable to provide the products ordered within the timeframe set out in the Purchase Order. If applicable, Hydrolico will notify the Customer in writing of its refusal of the Purchase Order.

5 Product pricing

All Products will be invoiced in accordance with Hydrolico's price schedule in effect at the time of the order.

The prices indicated in the price schedule do not include taxes. All sales, use, excise, property, business and other applicable taxes are the responsibility of the Customer and payable by the Customer to Hydrolico. If the Customer requests an exemption from any taxes, the Customer must provide written proof of the exemption and indemnify and hold Hydrolico harmless with respect to such taxes, interest, and penalties. Products may also be subject to import taxes, customs duties, and/or fees imposed by government regulations. These costs are the responsibility of the Customer and will be additional costs unless otherwise specified.

All prices on orders that have not yet been processed and accepted are subject to change without notice. Hydrolico reserves the right to correct any printing errors on the website or catalogue. Mixing of Product quantities to obtain volume discounts is only allowed on certain Products and will be done so at Hydrolico's sole discretion.

Hydrolico reserves the right to charge a non-refundable deposit for custom-made Products and/or Products that are shipped quickly. These deposits must be paid before Hydrolico begins production. If the Customer attempts to cancel or terminate an order for a custom-made Product, Hydrolico will keep the deposit as damages and not as a penalty. Notwithstanding the above, the Customer may not cancel or terminate an order for a Custom Product if the production of the Product has begun.

6 Payments

Unless otherwise agreed in writing by Hydrolico at the time of order processing, payment for all Products must be made prior to shipment. Hydrolico offers certain credit facilities through its credit department, which are subject to acceptance by Hydrolico and the credit terms are at its sole discretion.

Hydrolico International Inc.
Accounts Receivable
55 rue Théodore-Viau, Terrebonne, QC J6Y 0J8, Canada.

Hydrolico may suspend or delay the manufacture and/or shipping of subsequent Products or cancel or terminate pending orders due to late payments by the Customer. The Customer will reimburse Hydrolico for all damages incurred by Hydrolico as a result of such delay, cancellation or termination. The balance of the unpaid bills will increase at an interest rate of one percent (1%) per month (12% per year).

7 Shipping

All products will be delivered FOB to the Hydrolico shipping point by Incoterm. Hydrolico will determine the shipping and delivery method unless a prior written agreement between Hydrolico and the Customer is in place. All shipping and delivery dates provided by Hydrolico are approximate. Hydrolico shall not be held liable for delays in the delivery of any product for any reason or for the costs associated with this. Hydrolico shall not be responsible for handling fees or other transportation costs or incidental expenses.

The Customer bears all the risks of loss of the Products, upon delivery by Hydrolico to the carrier or upon collection by the Customer at the Hydrolico warehouse. The Customer will be responsible for filing and pursuing claims with carriers for loss or damage to Products in transit. Hydrolico makes no representation with respect to the authorizations that may be required to ship Products and assumes no responsibility in this regard. The Customer undertakes to carry out the checks and to obtain all the authorizations that may be required for transport.

Hydrolico may deliver the Products in several batches and bill each batch separately. Any request by the Customer to cancel part of an order prior to delivery must be made in writing. The Customer will pay the full cost of completed custom orders and stored custom components. Items held at Hydrolico at the request of the Customer or as a result of a failure by the Customer will incur storage fees of five percent (5%) per month of the total amount of the Purchase Order. Any order shipped by Hydrolico and refused by the Customer will be treated as a Product return. Special orders and/or Custom Products, including but not limited to cut rods and tubes, cannot be cancelled. Hydrolico may, without prejudice to any other right or remedy, cancel any order from the Customer or postpone shipping in the following events: the Customer does not pay the amount due to Hydrolico by the due date;

- (i) the financial situation of the Customer is unsatisfactory to Hydrolico, at our sole discretion;
- (ii) the Customer does not comply with any applicable law, rule, or regulation; or
- (iii) the Customer does not comply with these Terms, the Privacy Policy, or any other agreement with Hydrolico.

8 Product Returns

Product returns are authorized at Hydrolico's sole discretion. The Customer must not return products without the prior written authorization of Hydrolico and without marking such return with a Hydrolico Return Merchandise Authorization ("RMA") number provided by Hydrolico for such return. RMAs can only be obtained from Hydrolico by calling (450-628-6644) or 877-628-6644, or by making a request via email to info@hydrolico.com. The Customer shall assume all risks associated with the return of any Product. Returned Products must be received by Hydrolico within forty-five (45) days of receipt of the Product by the Customer, at the location designated by Hydrolico. Returned Products must not have been used, and must be free from any damage, be safely packed and marked with the name of the Customer and the RMA issued by Hydrolico.

Credit for any returned Product, if such credit is due, will be issued based on the lesser of the original invoice price or the current selling price. The issuance of a credit is contingent upon Hydrolico's satisfaction upon receipt of the Product and compliance with the return procedures provided in the previous paragraph. Special orders and Custom Products, including but not limited to cut rods and tubes, cannot be returned. Hydrolico may charge the Customer a restocking fee, which shall not exceed twenty percent (20%) of the amount initially invoiced to the Customer for the returned Product, in addition to all shipping costs (including, for greater certainty but not limited to, any applicable taxes or customs duties). This invoice is due within fifteen (15) days of receipt. The payment terms of article 6 apply with the necessary adjustments.

9 Custom Products

Hydrolico may choose to prepare one (1) or more drawings for the design of Customized Products on behalf of the Customer based on the Customer's design and instructions. Hydrolico will provide a copy of these drawings to the Customer as a submission for the manufacturing of a Custom Product. To accept Hydrolico's submission, the Customer must sign and return the drawings to Hydrolico by email or by any other method acceptable to Hydrolico. The Customer's signature on these drawings will constitute a verification by the Customer that Hydrolico's design of the Custom Product meets the Customer's requirements. In the event that the Customer provides one (1) or more of its own drawings for Hydrolico to manufacture a Custom Product, Hydrolico may make necessary changes, consistent with Hydrolico's design and manufacturing capabilities, and subsequently provide the Customer with drawings approved by Hydrolico for Customer's acceptance and signature. Drawings signed by the Customer in accordance with the provisions of this section ("Signed Drawings") will form part of these Terms with respect to the applicable Products, regardless of the original supplier of these drawings or if changes are made to them by Hydrolico or the Customer.

Once Hydrolico receives the signed drawings, Hydrolico will not modify any Key Attributes (defined below) of a custom Product design without obtaining the Customer's consent. The Customer's signature on the updated drawing(s) shall constitute the Customer's consent to these modifications. Once Hydrolico receives the signed drawings, the Customer must request any changes to any Key Attributes in the Custom Product design, by providing Hydrolico, or by requesting Hydrolico to provide updated drawings that reflect these proposed or requested changes to the design for the Customer's signature. Hydrolico's acceptance of any updated design will be communicated to the Customer in writing. As used here, "Key Attribute" includes bore diameter, stroke, retracted length, and mounting type. Hydrolico may choose, but is not required, to allow the Customer to designate in writing one (1) or more attributes of the general appearance, design, dimensions, or other attributes of a Custom Product as a Key Attribute for purposes of these Terms.

Hydrolico reserves the right to authorize or make changes to any attribute of a Custom Product, other than a Key Attribute, as is reasonably necessary for Hydrolico to manufacture that Product in accordance with Hydrolico's design, material procurement, and manufacturing capabilities. Notwithstanding the foregoing, Hydrolico reserves the right to authorize or make changes to any Custom Product for which the Customer signed drawings prior to January 16, 2015, including any Key Attribute and its related signed drawings, without obtaining the consent of the Customer.

The Customer is fully liable for the design, quality, and functionality or lack thereof of any Custom Product, including, but not limited to, any cylinder, hydraulic power unit, or other Products. Hydrolico assumes no liability for the operation or use by the Customer or the end user of such Custom Product. All drawings, special tools, dies, models, templates, and assemblies created, purchased or supplied by Hydrolico will be and remain the exclusive property of Hydrolico and the Customer will have no rights over them.

The Customer who provides drawings to Hydrolico states and guarantees that he has the Intellectual Property Rights (as defined in article 12) to these designs or authorization from the owner of these Intellectual Property Rights to have the Custom Products manufactured by Hydrolico.

10 Limited Warranty; Warranty Disclaimers

Unless otherwise specified, Hydrolico warrants Products manufactured by Hydrolico for a period of one (1) year from the date of purchase against failures, only to the extent that they are caused by faulty materials or faulty workmanship, provided that:

- a) his failure occurs during the use of the Product in accordance with the Product specifications provided by Hydrolico; and
- b) there was no disassembly, damage during shipping, abuse, misuse, misapplication, maintenance, modification, or improper installation or maintenance or repair of the Product.

Warranty coverage is conditional upon the Customer:

- a) notifying Hydrolico in writing of the warranty claim, within fifteen (15) days following the alleged malfunction;
- b) obtaining an RMA and a product return location from Hydrolico, unless Hydrolico chooses not to provide one;
- c) complying with all applicable Hydrolico procedures and instructions regarding the return of the Product;
- d) providing Hydrolico with a detailed written report on the circumstances of the alleged failure of the Product, including photos of the Product; and
- e) giving Hydrolico a reasonable amount of time to inspect the Product and investigate the claim.

Hydrolico's sole obligation under this limited warranty will be as follows: If, following the inspection conducted by Hydrolico of the Products returned in accordance with the above, the warranty described above applies, Hydrolico may, at its sole discretion, either refund the price paid by the Customer for the Product, or replace the Product or part and pay the shipping costs incurred as a consequence at the lowest rate for shipping from the Hydrolico Customer's site to a Hydrolico product return site. If following inspection by Hydrolico of the returned Products, the warranty described above does not apply, inspection fees, plus shipping and handling, will be invoiced to the Customer by Hydrolico.

Hydrolico does not guarantee or provide technical advice as to the suitability of a Product for the Customer's application or use. The Customer is solely responsible for determining whether a Product meets its needs and for complying with all applicable laws, ordinances, regulations, rules, and standards relating to the installation, maintenance, use, dismantling, demolition, and disposal of each Product.

THE FOREGOING CONSTITUTES THE EXCLUSIVE REMEDY OF THE CUSTOMER AND THE EXCLUSIVE LIABILITY OF HYDROLICO. THIS GUARANTEE CANNOT BE ASSIGNED OR TRANSFERRED BY THE CUSTOMER. THIS WARRANTY SUPERSEDES ANY OTHER WARRANTY, ORAL OR WRITTEN, EXPRESS OR IMPLIED. ANY WARRANTY OF MERCHANTABILITY, CONSISTENT WITH A PARTICULAR USE. ANY OTHER WARRANTIES NOT SPECIFICALLY PROVIDED HEREIN ARE SPECIFICALLY EXCLUDED. THE SALE OF HYDROLICO PRODUCTS UNDER ANY OTHER WARRANTY IS NOT AUTHORIZED.

ANY PRODUCT SOLD BY HYDROLICO THAT IS NOT MANUFACTURED BY HYDROLICO IS SOLD ON AN "AS IS" AND "WITH ALL FAULTS" BASIS. WITH RESPECT TO SUCH A PRODUCT, HYDROLICO EXCLUDES AND DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, WRITTEN OR ORAL, AS WELL AS ANY WARRANTY OF COMPLIANCE OR FITNESS FOR A PARTICULAR USE.

Many Products sold by Hydrolico are manufactured by third parties and are guaranteed by their manufacturers. Any third party warranty for any item in the Hydrolico printed catalogue or website can be obtained from: Hydrolico International Inc., 55, Théodore-Viau, Terrebonne, Québec, Canada J6Y 0J8.

11 Limitation of Liability

IN NO EVENT, REGARDLESS OF THE SOURCE OF HYDROLICO'S LIABILITY, SHALL HYDROLICO BE LIABLE TO THE CUSTOMER OR ANY THIRD PARTY FOR ANY INDIRECT, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES, INCLUDING, BUT NOT LIMITED TO, ANY LOSS OF PROFITS OR LOSS OF USE, REGARDLESS OF FAULT OR CAUSE, EVEN IF HYDROLICO IS ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH DAMAGES.

UNDER NO CIRCUMSTANCES WILL HYDROLICO BE LIABLE TO THE CUSTOMER FOR ANY TOTAL AMOUNT EXCEEDING THE PURCHASE PRICE OF THE PRODUCT(S) FOR WHICH A CLAIM IS MADE AS WELL AS DELIVERY COSTS, IF APPLICABLE. THE CUSTOMER WAIVES ANY COMPENSATION AGAINST PAYMENTS DUE ON HIS ORDERS. THE CUSTOMER ALSO WAIVES HIS RIGHT TO THE DEFENCE OF NON-PERFORMANCE. THE PROVISIONS OF THIS SECTION

DISTRIBUTE THE RISKS BETWEEN HYDROLICO AND THE CUSTOMER. HYDROLICO'S PRICES REFLECT THIS DISTRIBUTION OF RISKS AND, WITHOUT THIS DISTRIBUTION AND LIMITATION OF LIABILITY, HYDROLICO WOULD NOT HAVE CONCLUDED ANY AGREEMENT WITH THE CUSTOMER FOR THE SALE OF PRODUCTS. THE CONDITIONS IN THIS SECTION WILL ALSO APPLY TO ANY SUPPLY CONTRACT AND ANY SUPPLY PLAN BETWEEN HYDROLICO AND THE CUSTOMER WITH NECESSARY ADJUSTMENTS.

12 Intellectual Property

Hydrolico's exclusive liability for the violation of patents, trademarks, copyrights, trade dress, trade secrets, or similar rights, and the Customer's exclusive remedy for such infringement will be as follows: Hydrolico shall defend, indemnify and hold harmless the Customer, including retaining legal counsel chosen at Hydrolico's discretion, with respect to any legal proceedings brought against the Customer by a third party for infringement of patents, trademarks, copyrights, trade dress, and trade secrets ("Intellectual Property Rights") resulting solely from the sale by Hydrolico of Products designed and manufactured solely by Hydrolico. The Customer must cooperate fully with Hydrolico in the defense and must not take any position unfavourable to Hydrolico's defense against such action. The foregoing commitment does not apply unless Hydrolico has been informed in writing and in detail by the Customer as soon as possible of any infringement claim and has been given the opportunity to consent and defend them. Hydrolico will have the right to resolve any claim in the manner agreed between Hydrolico and the Customer.

Notwithstanding the foregoing, Hydrolico shall have no obligation to defend or indemnify the Customer in the event of infringement claims based on:

- (i) information or designs provided or specified in whole or in part by the Customer;
- (ii) offences resulting from the amendment;
- (iii) a combination or the use of any Product in a system; or (iv) Products that are not manufactured solely by Hydrolico.

Under these Terms, to the extent that any product supplied is manufactured in accordance with the drawings, samples, manufacturing specifications, or other information or content provided by the customer, the customer must indemnify and hold Hydrolico harmless from all damages, costs, and expenses resulting from a claim that said product manufactured by Hydrolico under the direction and design of the Customer, in whole or in part, or the use of it infringes any foreign or national patent right.

The Customer agrees to undertake the defense of any such claim against Hydrolico at its own expense or to reimburse Hydrolico for its defense costs and expenses, including, without limitation, all reasonable extrajudicial fees, costs, and disbursements, incurred as a result of any such claim or claims, in addition to any other obligations of the Customer as set forth herein. Such a lawsuit can only be resolved with the agreement of Hydrolico.

13 Entire Agreement

These Terms, including, without limitation, any Purchase Order and related Product Specifications, if any, represent the entire agreement between the parties with respect to the subject matter hereof and supersede all other prior agreements, understandings, and accords, whether oral or written. No provision of these Terms may be amended, modified, revoked, cancelled, or terminated except in writing and signed by each of the parties hereto.

The Customer may not assign any rights or obligations under these Terms, any Purchase Order, or any Product Specification, in whole or in part, without the prior written consent of Hydrolico.

14 No waiver

If a party fails to exercise any of its rights granted hereunder, this does not constitute a waiver or modification of its rights under these terms and conditions; each party may, within the time prescribed by law, institute legal proceedings to exercise its rights under these terms and any previous failure or delay in doing does not constitute a defense which is enforceable.

15 Divisibility of the Conditions

If, for any reason, any provision of these Terms is deemed invalid, that invalidity will not affect any other provision of these Terms that is not considered invalid, and each such other provision shall remain in full force and effect, to the fullest extent of the law.

If any provision of these Terms is deemed partially invalid, that invalidity will in no way affect the remainder of that provision, and the remainder of that provision, together with all other provisions of these Terms, shall remain in full force and effect to the fullest extent of the law.

16 Force Majeure

Notwithstanding anything else contained herein to the contrary, neither party shall be liable for any failure or delay in performing its obligations (except for payment obligations) under these Terms to the extent that such breach or delay is due to "Force Majeure", including but not limited to cases of natural disasters, fires, floods, power outages, wars, civil unrest, epidemics, pandemics, sabotage, terrorism, accidents, insurrections, blockades, embargoes, storms, explosions, acts of a public enemy, social conflicts (whether or not the claims of employees are reasonable and/or to the extent that the party is able to satisfy), the failure of public carriers, Internet service providers, or other communication devices, the acts of cybercriminals, the acts of any government agency (civilian or military, foreign or domestic), the failure or delay of third parties or government agencies for which a party obtains or is required to obtain approvals, authorizations, licenses, franchises, or permits; the inability to obtain labor, materials, electricity, equipment, transportation, or other circumstances that are unforeseeable and unavoidable). Such delays will not constitute a breach or failure to perform these Terms or any part of them and the date by which obligations hereunder must be fulfilled will be extended by a period equal to the time lost as a result of these delays. Neither party shall be held liable to the other for claims of liability, damages, or other losses caused by or resulting from Force Majeure events.

17 Sending Notices in Writing

Except as otherwise provided herein, any notice required or authorized to be given in accordance with the provisions of these Terms must be in writing and shall be deemed to have been sent when it is (a) delivered in person or (b) deposited to the Canadian Postal Service, registered or certified, and prepaid, or (c) sent by electronic means (email or otherwise) that allows the sender to demonstrate that the notice was in fact received by the recipient. In each case, this notice must be delivered or addressed to the contact information indicated on the Customer's account for the purposes of placing orders with Hydrolico (in the Customer's case) or Hydrolico International Inc., 55, Théodore-Viau, Terrebonne, Quebec, Canada J6Y 0J8, or as otherwise provided in writing by the parties.

18 Compensation

THE CUSTOMER AGREES TO DEFEND AND INDEMNIFY AND HOLD HARMLESS HYDROLICO FROM ANY CLAIMS FOR LOSSES, COSTS, EXPENSES (INCLUDING, WITHOUT LIMITATION, REASONABLE EXTRAJUDICIAL COSTS, FEES, AND DISBURSEMENTS), DEMANDS, LIABILITY, CAUSE OF ACTION, OR DAMAGES OF ANY KIND, ARISING OUT OF OR IN ANY WAY RELATED TO:

- a) ANY MISUSE, ALTERATION, MODIFICATION, INSTALLATION, OR MISAPPLICATION OF ANY PRODUCT;
- b) USE OF ANY PRODUCT OTHER THAN IN ACCORDANCE WITH HYDROLICO INSTRUCTIONS AND SPECIFICATIONS;
- c) ANY BREACH OF FEDERAL, STATE, OR LOCAL LAWS, RULES, OR REGULATIONS; OR
- d) ANY BREACH OF ANY OF THE TERMS SET FORTH HEREIN OR OTHER BREACH OF ANY CUSTOMER AGREEMENT WITH HYDROLICO.

19 No third-party beneficiaries

Except as expressly provided herein, these Terms are for the sole benefit of the parties hereto and their respective successors and assigns and nothing hereof, express or implied, is intended or will confer upon any other person any right, benefit, or remedy of any kind under these Terms.

20 Applicable Law

These Terms, and any agreed amendments to them, will be governed in all respects by the laws of Quebec and the laws of Canada applicable there. Any legal claim relating to these Terms between Hydrolico and the Customer and/or to any Product sold to the Customer must be filed with a competent court in the judicial district of Terrebonne (Quebec, Canada), to the exclusion of any other court.
